2016 ANNUAL REPORT

American Academy of Allergy, Asthma & Immunology Foundation
*Funding research that leads to the prevention and cure of
asthma and allergic and immunologic disease.*

MESSAGE FROM THE COUNCIL CHAIR

Recent advances in allergic and immunologic disease research have been heartening and have led to better care for our patients. These advances make our mission statement, "to fund research that leads to the prevention and cure of asthma and allergic diseases," more achievable than ever. Consequently, our efforts to support young investigators have taken on a greater urgency and contains hope for even better outcomes.

The AAAAI Foundation's success over the past year is a testimony to our generous supporters. In 2017, we were able to support **three** Faculty Development Awards for the first time. Each of the awardees is an outstanding young investigator and our support is timely to their careers.

Our awards are a meaningful and effective investment. Since the first ERT Faculty Development Award was awarded in 1993, our award recipients have shown a

remarkable 1700% return on the initial support provided by the Foundation, generating an additional \$54.25 million in funding from other sources. Funding for research in A/I at this moment is crucial, as advances can improve quality of life for our patients like never before. We are continually grateful to our membership and our partners in industry for their continued support of our mission.

Grateful Patient Campaign

DOCTORS NEED THANKS, TOO.

Some of the most meaningful donations we receive each year come from the grateful patients of our member physicians. All donations go to support research in A/I that ultimately improves patient care.

Contact the Foundation office for a supply of patient brochures for your waiting room.

2016 Benefit and Run/Walk Raise \$247K for Research

Nearly 500 Foundation supporters gathered for the 2016 Benefit at the California Science Center's Samuel Oschin Endeavour Pavilion. Dinner was enjoyed underneath the massive Space Shuttle Endeavour. Drs. Rob Lemanske and Tom Fleisher presented a brief program announcing the 2016 Faculty Development Award recipients and unveiled the Foundation's new video and GAIN Campaign.

Football great Eric Dickerson leads the countdown to start the race.

More than 500 people helped "Light Up the Night" in Los Angeles by running and walking for allergy and asthma research. The Foundation was pleased to have Football Hall of Fame legend Eric Dickerson begin the event as Race Grand Marshal. Eric Dickerson is a grateful patient of AAAAI member Dr. Stuart Epstein.

Thank you to Shire for sponsoring the 5K Run/Walk.
